AACD Member since 2009

Responses to Application Questions:

- a. I've been a member since 2009, although some early years were not consecutive.
- b. Member, Kois Center Activity Committee.
Member, LEAD group.
- c. LEAD group yearly meeting.
Kois Activity Committee Seminar meetings and regular member communications/social media.
- d. It is my desire to serve on the Nominating and Leadership Development Committee and put forth my efforts in making a difference in the AACD. I became a member of the AACD because I felt this was the only academy, with their exceptional hands on courses and workshops, that could catapult my cosmetic skills and techniques. With every year that I attended the conference, I felt more and more confident in my ability to deliver quality esthetic dentistry. It is important for younger dentists to be aware of all the Academy can do for them, their patients and their practices. I feel the future of this academy is resting on the shoulders of its younger members. Making the AACD relevant to existing and new members will require the Academy to mirror the rapidly changing pace of our society. We need leadership that isn't afraid to embrace change, while maintaining standards.
- e. I feel my personality can be an asset to the committee as I am inclusive, nonjudgmental and approachable. While differences of opinions may arise, I feel strongly in my abilities to diffuse a situation, or objectively hear another side, with the clear intention of resolution and growth. I find when negotiating, diplomacy is essential to creating a positive outcome.
- f. I am a fervent multi-tasker, and can coordinate activities and projects efficiently.
- g. No felonies and no past or pending charges.
